

CCA WORKING FOR YOU!

GREAT REASONS TO BELONG TO CCA:

1. **CCA PLANS ROOM / COOLNet**

The "heart" of the Calgary Construction Centre is the PLANS ROOM where members can access documents for projects out for tender. Construction Opportunities On-Line Network (COOLNet) gives CCA members instant access 24-7 to all plans, specifications, and bidders' lists electronically, along with privileges like automatic e-mail notification of recently issued addenda. COOLNet will save you time and money!!

www.coolnet.ab.ca 

2. **BLUEPRINT REPRODUCTION**

Order Blue Prints in any size . . . at the counter, by fax or e-mail, or electronically via COOLNet. It's convenient and cost effective!

3. **THE VOICE OF THE CONSTRUCTION INDUSTRY**

Membership in CCA includes automatic membership in the Alberta Construction Association and the Canadian Construction Association. The CCA gives the construction industry the opportunity to get together to discuss the issues that affect us all, and advocate on a united front at all levels of government. It is impossible for an individual member to monitor all legislation that may affect their business. Even if it could be done, a lone voice is seldom heard.

4. **EDUCATION – TOOLS FOR SUCCESS**

Added value through educational seminars for management and staff. Topics range from LEED, Lien Legislation to that of Construction Law.

Scholarships and awards for employees, dependants and students are made available by CCA's Education Fund.

5. **YOUTH EMPLOYMENT PROGRAM (YEP)**

A "WIN-WIN" for the construction industry and youth. The primary goal of YEP is to create 3-week paid work experience opportunities for youth between the ages of 16-24, resulting in employers adding energetic young talent to the workforce. YEP participants are pre-screened and matched with an employer to gain experience in a trade or occupation that interests him/her and have the opportunity to be hired by the employer once the 3 week work experience is completed.

6. STANDARD FORMS OF CONTRACT / CONSTRUCTION GUIDES

Over 50 Standard Forms of Contract and Construction Guides available in hard copy or electronic format.

7. GOLD SEAL PROGRAM

The Gold Seal Certification Program was developed by the Canadian Construction Association to recognize, on a national basis, the skills and competencies of the key managerial positions of the Superintendent, Estimator, Project Manager and Construction Safety Coordinator. The Gold Seal Certificate is valued by the construction industry in recognition of professionalism and offers a real degree of assurance to the industry that the individual has attained a nationally recognized level of competence based on “experience”, “education”, and “examination”.

8. PLAN DEPOSIT GUARANTEE PROGRAM (PDGP)

The CCA Plans Deposit Guarantee Program provides the industry with a cost efficient Plan Deposit system, replacing the traditional industry practice of refundable deposits for tender documents. The PDGP is available for use by owners, design consultants along with general, mechanical and electrical contractor members of CCA.

9. NETWORKING

CCA provides multiple business forums and social activities to broaden your network of contacts in the construction industry. Golf tournaments, breakfast meetings and receptions for specific events provide informative networking opportunities.

**CCA is committed to improving
YOUR construction community!**
